

SHOM

HEALTHCARE LLP

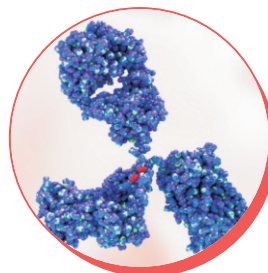

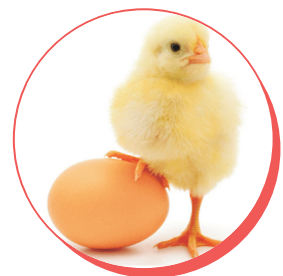

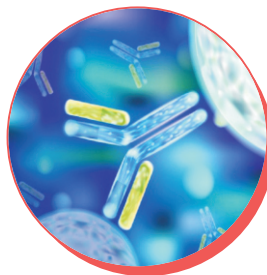

**Plot No. B-72, Kamdhenu Estate,
Village Bakrol, Sub District Ankleshwar,
District Bharuch, Gujarat, India-394115**

Raw materials like

1. Control Material Like Mouse IgG, Goat Anti Mouse IgG, Rabbit IgG, Goat Anti Rabbit IgG, Chicken IgY, Anti Chicken IgY
2. α hCG Monoclonal Antibody , β hCG Monoclonal Antibody
3. HBSAG Rapid Test material (Coating and Conjugation)
4. Dengue NS1 Antibody for capture and conjugation
5. H. Pylory antibody and Antigen for coating and conjugation
6. LH α antibody, LH β Antibody
7. Anti human IgG Monoclonal Antibody
8. Anti Human IgM Monoclonal Antibody

Consumables like

- 1 PVC Backing Sheet
- 2 absorbent pad
- 3 Gold Chloride Powder
- 4 PVC/PAT for Urine Assay
- 5 Sample Pad
- 6 Conjugate Matrix Release
- 7 cover tape

Dengue Antibody and Antigen Combo Test

Dengue antibody and antigen combo Test is an immunochromatographic assay test that is intended for qualitative detection of Dengue NS1 antigen and Anti Dengue IgG/IgM antibodies from serum, plasma, whole blood.

Shelf life	: 24 Months
Temperature	: 2-30°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood/Serum/Plasma
Sample Volume	: 10 & 20µl
Reading Time	: 15 minutes

HIV 1 + 2 Antibody Test

HIV 1+2 Antibody Test is an immunochromatographic assay-based antibody test that is intended for qualitative detection of antibodies specific to HIV-1 and 2 in human serum, plasma and whole blood.

Shelf life	: 24 Months
Temperature	: 2-30°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood/Serum/Plasma
Sample Volume	: 10 & 20µl
Reading Time	: 15 minutes

HBsAg Antigen Rapid Test

HBsAg Antigen Rapid Test is immunochromatographic assay based rapid antibody test that is intended for qualitative detection of HBsAg antigen from serum, plasma, whole blood.

Shelf life	: 24 Months
Temperature	: 2-30°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood/Serum/Plasma
Sample Volume	: 20µl
Reading Time	: 15 minutes

HCV Antibody Test

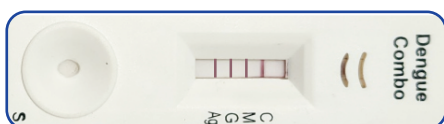

HCV Antibody Test is immunochromatographic assay based rapid antibody test that is intended for qualitative detection of Anti HCV antibodies from serum, plasma, whole blood.

Shelf life	: 24 Months
Temperature	: 2-30°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood/Serum/Plasma
Sample Volume	: 20µl
Reading Time	: 15 minutes

One Strip Dengue Antibody & Antigen Combo Test

Dengue antibody and antigen combo Test is an immunochromatographic assay test that is intended for qualitative detection of Dengue NS1 antigen and Anti Dengue IgG/IgM antibodies from serum, plasma, whole blood.

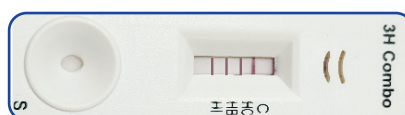

Shelf life	: 24 Months
Temperature	: 2-30°C
Specificity	: 99 %
Sensitivity	: 99 %
Sample Type	: Whole Blood/Serum/Plasma
Sample Volume	: 20µl
Reading Time	: 15 minutes

ONE STRIP HIV-HCV-HBSAG COMBO TEST

HIV-HCV-HBSAG Combo Test is an immunochromatographic assay test that is intended for qualitative detection of Antibody against HIV 1-2 & HCV and HBsAg antigen from serum, plasma, whole blood.

Shelf life	: 24 Months
Temperature	: 2-30°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood/Serum/Plasma
Sample Volume	: 20µl
Reading Time	: 15 minutes

Malaria Pf (HRP2)/PAN (pLDH) Antigen Test

Malaria Pf (HRP2)/PAN (PLDH) Antigen test is immunochromatographic assay based rapid antigen test that is intended for qualitative detection antigen specific to Pf (HRPII) and PAN (PLDH) for whole blood.

Shelf life	: 24 Months
Temperature	: 2-40°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood
Sample Volume	: 5 μ l
Reading Time	: 20 minutes

Malaria Pf (HRP2)/Pv (pLDH) Antigen Test

Malaria Pf (HRP2)/Pv (pLDH) Antigen test is immunochromatographic assay based rapid antigen test that is intended for qualitative detection antigen specific to Pf (HRPII) and Pv (PLDH) for whole blood.

Shelf life	: 24 Months
Temperature	: 2-40°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood
Sample Volume	: 5 μ l
Reading Time	: 20 minutes

Influenza A+B Rapid Antigen Test

Shelf life	: 24 Months
Temperature	: 2-30°C
Sample Type	: nasopharyngeal swab or oropharyngeal swab
Sample Volume	: Swab, ~ 100 μ l
Reading Time	: 15 minutes

KIND OF SAMPLES	TYPE	SENSITIVITY
NASOPHARYNGEAL SWAB	A	92.3% (36/39), 95%CI : 79.7%~97.4%
	B	91.4% (32/35), 95%CI : 77.6%~97.0%
OROPHARYNGEAL SWAB	A	92.1% (35/38), 95%CI : 79.2%~97.3%
	B	90.9% (30/33), 95%CI : 76.4%~96.9%

The Influenza A+B Rapid Test Cassette is a lateral flow immunoassay intended for the qualitative detection of influenza A and influenza B viral nucleocapsid protein antigens in naspharyngeal swab or oropharyngeal swab from individuals.

Dengue NS1 Antigen Test

Dengue NS1 Antigen Test is immunochromatographic assay based test that is intended for qualitative detection of Dengue NS1 antigen from serum, plasma, whole blood.

Shelf life	: 24 Months
Temperature	: 2-30°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood/Serum/Plasma
Sample Volume	: 20 μ l
Reading Time	: 15 minutes

Dengue Antigen Test

Dengue Antibody Test is an immunochromatographic assay that is intended for the qualitative detection of Anti Dengue IgG/IgM antibodies from serum, plasma and whole blood.

Shelf life	: 24 Months
Temperature	: 2-30°C
Specificity	: 100%
Sensitivity	: 100%
Sample Type	: Whole Blood/Serum/Plasma
Sample Volume	: 20 μ l
Reading Time	: 15 minutes

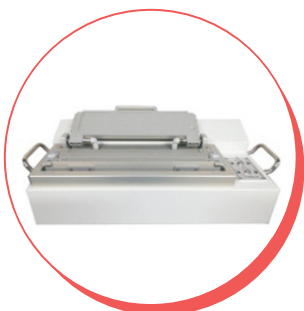

Uncut Sheet and Finished Test

1. Dengue Antibody Test
2. Dengue Antigen Test
3. Dengue Antigen And Antibody Combo Test
(all four line in one cassette)
4. HIV Antibody Test
5. Malaria PF/PAN Antigen Test
6. Malaria PF/PV Antigen Test
7. HIV-HCV-HBSAG Combo Rapid Test
8. Syphilis Antibody Test
9. LH Test
10. FSH Test
11. S. Typhi Antibody Test
12. Filaria Antibody Test
13. Influenza A+B Rapid Antigen Test
14. Leptospira Antibody Test
15. Chikungunya Antibody Test
16. HCV Antibody Test
17. HBsAg Antigen Test
18. Troponin I Test
19. Troponin T Test
20. Hiv 1+2 and Syphilis Antibody Combo Test

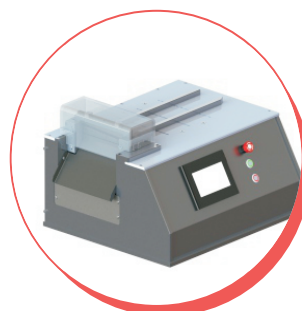

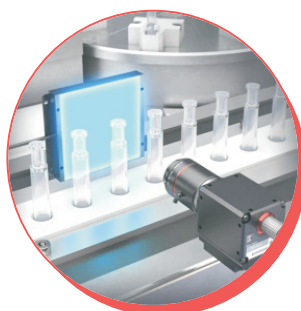

ALL TESTS ARE AVAILABLE IN WHOLE-BLOOD / SERUM / PLASMA FORMAT

Lateralflow Manufacturing Machine

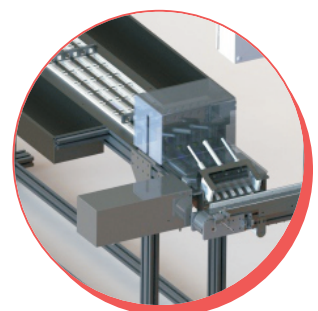

1. Precision Dispenser
(coating and Gold Spraying Instrument)
2. Cutter machine for Rapid card and urine card
3. Cassette pressing machine
4. Dip and Dry machine for pad treatment
5. Sheet Cutter
6. Laminators
7. Cassette assembly machine
(Semi Auto, with and without Inspection)
8. Pouch Packing Machine
9. Portable Dehumidifier

CLAMSHELL LAMINATOR

HIGH SPEED
GUILLOTINE CUTTER

ASSEMBLY CONVEYOR
& PRESSER

No.	Products	Pack Size
1.	Amylase	2x 50mL
2.	Albumin	2x50ml
3.	Alkaline Phosphatase SL	2x50ml
4.	AST/GOT	2x50ml
5.	ALT/GPT	2x50ml
6.	Calcium ARS	2x50ml
7.	Cholesterol	2x50ml
8.	Creatinine Two reagent	2 x 50ml
9.	Gamma GT	2 x 50ml
10.	Glucose	2x500ml
11.	Magnesium	2 x 50ml
12.	Phosphorus	2 x 50ml
13.	Triglyceride	2x50ml
14.	Total Protein	2x50ml
15.	Urea UV	2 x 50ml
16.	LDH (P-L)	2 x 50ml
17.	Bilirubin (End Point)	2x50ml
18.	CRP	50ML
19.	CK MB	25ML
20.	CK NAC	25ML
21.	Uric Acid	2x50ml
22.	HDL Cholesterol	40ml
23.	LDL Cholesterol	40ml
24.	ASO	50ML
25.	Magnesium (Mono Vial)	50 Test
26.	Phosphorus (Mono Vial)	50 Test
27.	Chloride (Mono Vial)	50 Test
28.	Micro Protein (Mono Vial)	50 Test
29.	Calcium (Mono Vial)	50 Test
30.	Creatinine Enzymatic	40ml
31.	HCY with calibrator & control	R1:1x20mL + R2:1x6.5mL
32.	HCY with calibrator & control	R1:2x20mL + R2:1x13mL
33.	IgE With Calibrator	R1:1x20mL + R2:1x10mL
34.	IgE With Calibrator	R1:2x20mL + R2:1x20mL
35.	IgE Control	2x1mL
36.	ADA With Calibrator & control	R1:1x20mL + R2:1x10mL
37.	ADA With Calibrator & control	R1:2x20mL + R2:1x20mL
38.	Direct Bilirubin (DCA)	R1:2x50mL + R2:1x25mL
39.	Total Bilirubin (DCA)	R1:2x50mL + R2:1x25mL
40.	TBA with calibrator	R1:2x60mL + R2:2x20mL
41.	TBA with Calibrator	R1:1x30mL + R2:1x10mL
42.	LPA	R1:1x20mL + R2:1x5mL
43.	LPA	R1:1x60mL + R2:1x15mL
44.	LPA	R1:2x60mL + R2:2x15mL
45.	LPA Calibrator	5x1mL
46.	LPA Control	2x1mL
47.	HDL with Calibrator	R1:2x18mL + R2:1x12mL
48.	HDL with Calibrator	R1:2x48mL + R2:2x16mL
49.	LDL with Calibrator	R1:2x18mL + R2:1x12mL
50.	LDL with Calibrator	R1:2x48mL + R2:2x16mL
51.	Lactate with calibrator & Control	1x20mL
52.	ACE	10x10mL
53.	ACE Calibrator	1x1mL
54.	ACE Control	2x1mL
55.	HS-CRP	R1:1x18mL + R2:1x6mL
56.	hs-CRP Calibrator	5x1mL
57.	hs-CRP Control	2x1mL
58.	MicroAlbumin with Calibrator & Control	R1:1x18mL + R2:1x6mL
59.	MicroAlbumin with Calibrator & Control	R1:1x60mL + R2:1x20mL

Various Pack Size Available On Request
